GRAEFENBERG COMPANY NEW YORK

MONTHLY BULLETIN
NO 9.

THE POSITION OF the Graefenberg Co. in relation to the health of the community is now all established and the admirable series of Graefenberg Medicines are everywhere taking the lead of all others. In numerous parts of the country the medical faculty adopt these medicines in their practice, satisfied from sample tests, than by their use they can more certainly combat disease in all its forms. And not only do physicians sanction and encourage their use, but the people generally of every denomination attest their wonderful efficacy and in numerous ways recommend them to the people of their choice. The Legal profession testify to the same thing; in short, the public at large hail the introduction of these medicines as a public blessing.

There are over ten thousand agencies of the Company in the United States, which are not only profitable to the agents, but of vast benefit to the inhabitants. There should not be a single town, village, or hamlet, without its Graefenberg Depot; and if this bulletin be read where there is no agency, application should be made for one at once.

Certificates, almost without number, are on file at the offices of the Company, testifying to cures of the most astonishing kind; many of which have been certified to by the following distinguished gentlemen: Rev. N. Bangs, D. D., Francis Hall, Esq., Ex-Mayor Brady, all of New York.

The power of the Graefenberg Medicines over all bilious complaints, no matter what their form or severity, is a matter of profound astonishment. Let all who are thus afflicted, and who would cleanse the system, resort at once to the celebrated Graefenberg Vegetable Health Bitters. At all events let them call at some of the agents and get a pamphlet gratis, which will fully explain the whole matter.

CAUTION EXTRA.

A MAN BY THE NAME OF ANDREWS, one of the former proprietors of McAlister's Ointment and some other man under the name of Skillman, Thompson & Co., have employed a man by the name of Jacob Townsend to use his name to put up a Sarsaparilla which they call "Old Dr. Townsend's Sarsaparilla, &c.," and wish to sell it as the genuine and original Dr. Townsend's Sarsaparilla. This Townsend is now one of McAlister's traveling agents. The Public are cautioned not to be deceived, and purchase none if they wish the genuine, but such as are put up in splendid Steel Plate wrappers, and signed by S. B. TOWNSEND, Principal Office, 126 Fulton street.

Great Spring and Summer Medicine.

This Extract is put up in Quart Bottles, it is six times cheaper, pleasanter, and warranted superior to any sold. It cures disease without vomiting, purging, sickening or debilitating the Patient.

The great beauty and superiority of this Sarsaparilla over all other medicines is, while it eradicates disease, it invigorates the body. It is one of the very best

SPRING AND SUMMER MEDICINES

Ever known; it not only purifies the whole system and strengthens the person, but it creates new, pure and rich blood; a power possessed by no other medicine. And in this lies the grand secret of its wonderful success. It has performed within the last two years, more than 100,000 cures of severe cases of disease; at least 15,000 were considered incurable. It has saved the lives of more than 5,000 children the two past seasons.

10,000 cases of General Debility and a want of Nervous Energy.

Dr. Townsend's Sarsaparilla invigorates the whole system permanently. To those who have lost their nervous energy by the effects of medicine or indiscretion committed in youth or the excessive indulgence of the passions, and brought on by physical prostration of the nervous system lassitude, want of ambition, fainting sensations, premature decay and decline hastening towards that fatal disease Consumption, can be entirely restored by this pleasant remedy. This Sarsaparilla is far superior to any

Invigorating Cordial.

As it renews and invigorates the system, gives activity to the limbs, and strength to the muscular system in a most extraordinary degree.

Consumption Cured.

Chronic and Acute Rheumatism, Consumption can be cured. Bronchitis, Consumption, Liver Complaint, Colds, Catarrh, Coughs, Asthma, Spitting Blood, Soreness in the Chest, Hectic Flush, Night Sweats, Difficult or Profuse Expectoration, Pain in the Side, &c., have been and can be cured.

Spitting Blood.

DR TOWNSEND.—I verily believe your Sarsaparilla has been the means, through Providence, of saving my life. I have for several years had a bad Cough. It became worse and worse. At last I raised large quantities of blood, had night sweats, and was greatly debilitated and reduced, and did not expect to live. I have only used your Sarsaparilla a short time, and there has a wonderful change been wrought in me. I am able to walk all over the city. I raise no blood, and my cough has left me. You can well imagine that I am thankful for these results.
Your obedient servant,
WM. RUSSELL, 65 Cedar st.

Female Medicine.

Dr. Townsend's Sarsaparilla is a sovereign and speedy cure for incipient Consumption, Barrenness Prosaous Uteri or Falling of the Womb, Coarse Pimples, Leucorrhea, or Whites, obstructed or scanty Menstruation, Incontinence of Urine, or involuntary discharge thereof, and for the general prostration of the system—no matter whether the result of improper usage or causes produced by exposure, illness or accident. Nothing can be more surprising than its invigorating effects on the human frame. Persons of all weakness and lassitude, from taking it at once become robust and full of energy under its influence. It immediately invigorates the nervousness of the female frame, which is the great cause of Barrenness. It will not be expected of us, in our delicate a cure, to exhibit certificates. Those performed by us can assure the afflicted, that hundreds of cases have been reported to us. Thousands of cases where families have been without children, after using a few bottles of this invaluable medicine, have been blessed with fine, healthy offspring.

To Mothers and Married Ladies.

This Extract of Sarsaparilla has been expressly prepared in reference to female complaints. No female who has reason to suppose she is approaching that critical period, "*The turn of life*," should neglect to take it, as it is a certain preventive for any of the numerous and horrible diseases to which females are subject at this time of life. This period *may be delayed for several years by using this medicine*. Nor is it less valuable for those who are approaching womanhood, as it is calculated to assist nature by quickening the blood and invigorating the system. Indeed, this medicine is invaluable for all the delicate diseases to which women are subject.

Notice to the Ladies.

Those that imitate Dr. Townsend's Sarsaparilla, have invariably called their stuff a *great Remedy for Females, &c., &c.*, and have copied our bills and circulars which relates to the complaints of women, word for word—so has one or two people, have, since the great success of Dr Townsend's Sarsaparilla in complaints incident to females recommended theirs although previously they did not. A number of these imitators, Pills, &c., are injurious to females, as they aggravate disease, and undermine the constitution. Dr. Townsend's is the only and best remedy for the numerous female complaints—it rarely, if ever fails of affecting a permanent cure. It can be taken by the most delicate females, in any case, or by those expecting to become mothers, with the greatest advantages, as it prepares the system and prevents pain or danger, and strengthens both mother and child. Be careful to get the genuine.

Opinions of Physicians.

Dr. Townsend is almost daily receiving orders from Physicians in different parts of the Union.

This is to certify that we, the undersigned, Physicians of the City of Albany, have in numerous cases prescribed Dr. Townsend's Sarsaparilla, and believe it to be one of the most valuable preparations in the market.

NOTICE TO THE AFFLICTED.

Eure pamphlets gratis, for the cure of all diseases to which the human system is liable, more especially those which are commonly called Chronic Diseases very many of which are caused by merely a slight derangement of some important organ, and left to itself, would in time, without any medicine, or by the untimely interference of bad and injudicious medicines, eventually developes the very worst and most malignant forms of disease, which by a slow and often times almost imperceptible process, destroys life.

When this is not the case, those organs most important to vitality become so debilitated in their action, or degree of strength, as to interfere with the great functions of vitality, and render them almost insensible to their original design, thereby rendering the unhappy sufferers a living death. The many flattering prospects for the future forbidding, his hopes blighted, a melancholy respect is thrown around him, his mind is indescribable, and he, also, resigns himself to his fate, believing it to be an utter impossibility for him to get relief, much more to receive a perfect cure. An invitation is now extended to all such to call on Dr. TOWNSEND, at his office in Howard street, No. 13, where they are assured they will find a combination of skill and experience unequalled by any on the continent of Europe or this country. Dr. Day's heretofore extensive practice, together with his judicious medicines, his close intimacy with the different hospitals of Europe and this country, his complete knowledge of the mysteries of pharmacy, together with a well disciplined mind, a sound and correct judgment are facilities possessed by no other physician, in this or any other country.

Dr. Day is prepared to treat medically or surgically, all diseases which may be presented by either male or female. His unprecedented success heretofore, together with the numerous testimonials, in his possession of gratitude, from a just and discerning public, has induced the Dr. to take this method of informing the many thousands who are constantly hoaxing for him where they can find him.

His medicines are compounded under his direct supervision, in his own office, of the very best drugs, selected by himself, very many of which are so exceedingly valuable, that they are a hundred times prevalent by the Dr. for his own use, and his private practice, whose virtues are wholly unknown by the profession generally, and the humility which the Dr. feels him to be, has been the direct result of long and deep research. The peculiar efficacy of those medicines, in connection with the successful cure which attends their administration, almost invariably produces a perfect cure and in very many hopeless cases, no astonishing has been the successful result, that it is almost incredible, or would be, were it not that thousands are now ready to testify, who have been restored to perfect health, in their superior virtues, and unequalled efficacy.

Dr. Day is now prepared to treat all affections both acute and chronic among the most prominent of which are scrofula, ulcers of long standing, all diseases of the skin, influenza, pains from weakness, such as dizziness, ringing in the ears, nervous headache, nervous fits, and all diseases arising from indiscretion, or exposure, both primary and secondary. Also, all female complaints, however complicated they may be, the Dr.'s medicines produce a most a most wonderful and effectual cure.

The Dr's apartments are so arranged, that all consultations will be conducted in private, and to the satisfaction of all parties. Patients are accommodated with board on reasonable terms, with good and experienced attendants.

Communications by mail, postpaid, will be promptly responded to.

Remember and be particular as to the office, and number, viz. 13 HOWARD STREET, BOSTON.

HONOR TO WHOM HONOR IS DUE.

ANDOVER, Mass., June 28th, 1848. I am a young man—a student in the theological seminary, Andover. I have suffered for many years with that most dreadful of complaints, Seminal Weakness, involuntary emissions in my sleep, &c. No one but a physician or a person afflicted as I was, can realize the situation I was in. My disease, as is generally the case, was brought upon myself by an indiscretion in youth, a habit which my friends practice more or less. As soon as I perceived it was that great evil, I left the habit off, but alas it was too late to prevent the ravages which it had already fastened on my constitution. I applied to an old and skillful physician, he told me my case did not require medicine, that I should soon get well if I followed the habit no more. I waited and waited until I became so weak and nervous that I could hardly walk. I then consulted a physician who pretended to understand the disease, took his medicine three months, but got no relief. Since I have applied to others, but received no benefit. I began to despair when I had never, by one hour, had a continual pain or distress in the head, dizziness, ringing in my ears, forgetfulness, weak eyes, etc. I was almost in despair when my friends supposed me in a decline from intense study and confinement. The 21st of last April (that day I shall never forget, a friend and fellow student said to me: "William, I have come to advise you, I have been troubled the same as you are; I believe I know your malady, and I can recommend to you a cure. I was cured by the Dr. Dow, of Boston, and I know I am now a sound man." I called on Dr. Dow, and he gave me a long list of cases, which I read with astonishment. The next day I called on all of them, followed their advice, and received the benefit of their improved course of treatment for a little over nine weeks, great ally improving, until now I feel strong and well, both in body and mind. If this communication should meet the eye of any one afflicted as I was, I advise him, as a friend to suffering humanity, to go immediately to No. 11 Endicott Street and be cured. Drs. C. & H. are gentlemen as well as skillful and experienced physicians of the express.

A friend to the afflicted. WM. GRANGER
